3. The Energy Regulator further directs as follows:

- 3.1 The municipality to submit a report accounting for all the costs that have been noted for 2024/25 financial year, to enable the Regulator to perform its independent verification by 28 November 2025.
  - 3.2 All cost information submitted by the municipality will be subject to an independent verification and may be clawed back upon receipt of audited financial figures by the Regulator by 28 November 2025.
4. Please note that in terms of the National Energy Regulator Act, 2004 (Act No. 40 of 2004), National Energy Regulator is entrusted to perform all the functions that the National Electricity Regulator used to perform, and amongst others, to review and approve tariff increase proposals by all licensed distributors of electricity in South Africa. Implementation of tariffs without approval of the Energy Regulator is a contravention of the license conditions issued to you.
5. It is therefore important that provision is made in your planning / budgeting cycle to allow time for the submission of applications for future changes or increases to NERSA for

consideration. NERSA further requests that you submit your budgetary timelines for purposes of our planning.

6. Should you have any enquiries please do not hesitate to contact Mr Rhulani Mathebula on (012) 401 4616 or email: [Rhulani.Mathebula@nersa.org.za](mailto:Rhulani.Mathebula@nersa.org.za).

Yours sincerely
