1. IDP PROCESS PLAN

1.1 Introduction

It is required by legislation that a municipal council adopt a process to guide the planning, drafting and adoption of its IDP. The 2025/26 IDP Process Plan would be considered as the final revised annual draft of the 5 years elective Council term of 2021/22-2025/26.

Local Government: Municipal System Act 28(1) “each municipal council must adopt a process set out in writing to guide the planning drafting adoption and review of its integrated development plan.”

This Process Plan outlines the programme to be followed and provides detail on the issues specified in the Act. A Process Plan is required to include:

- A programme specifying timeframes for the different steps;
- Outline mechanisms, processes and procedures for consultation of the community, organs of state, traditional authorities and role-players;
- Identify all plans and planning requirements binding on the municipality and be consistent with any other matters prescribed by legislation.

Local Government: MSA 29(1) “the process followed by a municipality to draft its integrated development plan, including its consideration and adoption of the draft plan, must –

(a) be in accordance with pre-determined programme specifying timeframes for the different steps;

(b) through appropriate mechanisms, processes and procedures established in terms of Chapter 4 allow for-

- the local community to be consulted on its development needs and priorities;
- ii. the local community to participate in the drafting of the IDP;
- iii. organs of state, including traditional authorities, and other role players to be identified and consulted on the drafting of the IDP;
- (c) provide for the identification of all plans and planning requirements binding on the municipality in terms of national and provincial legislation; and
- (d) be consistent with any other matters that may be prescribed by regulation”.

1. 2. Legislative background

The Local Government: Municipal Systems Act prescribes core component that must be reflected on, in the IDP. Section 26 of the MSA, in relation to the Structure of the IDP, states that “An integrated Development plan must reflect:

- the Municipal Council’s vision for the long-term development of the municipality with special emphasis on the municipality’s most critical development and internal transformation needs;
- an assessment of the existing level of development in the municipality, which must include an identification of communities which do not have access to basic municipal services;
- the Council’s development priorities and objectives for its elected term, including its local economic development aims and its internal transformation needs;
- the Council’s development strategies which must be aligned with any national or provincial sectoral plans and planning requirements binding on the municipality in terms of legislation;
- a spatial development framework which must include the provision of basic guidelines for a land use management system for the Municipality;
- the Council’s operational strategies;
- applicable disaster management plans;
- a financial plan, which must include a budget projection for at least the next three years; and
- the key performance indicators and performance targets determined in terms of Section 41.

To achieve the above, the Municipality will follow the review process that will ensure that all the core components of the IDP are reflected.

1.6 IDP Planning Process Flow

The inter-relations between the various structures as identified above as well as the workflow process to be followed in the drafting of the IDP is presented in the diagram below;

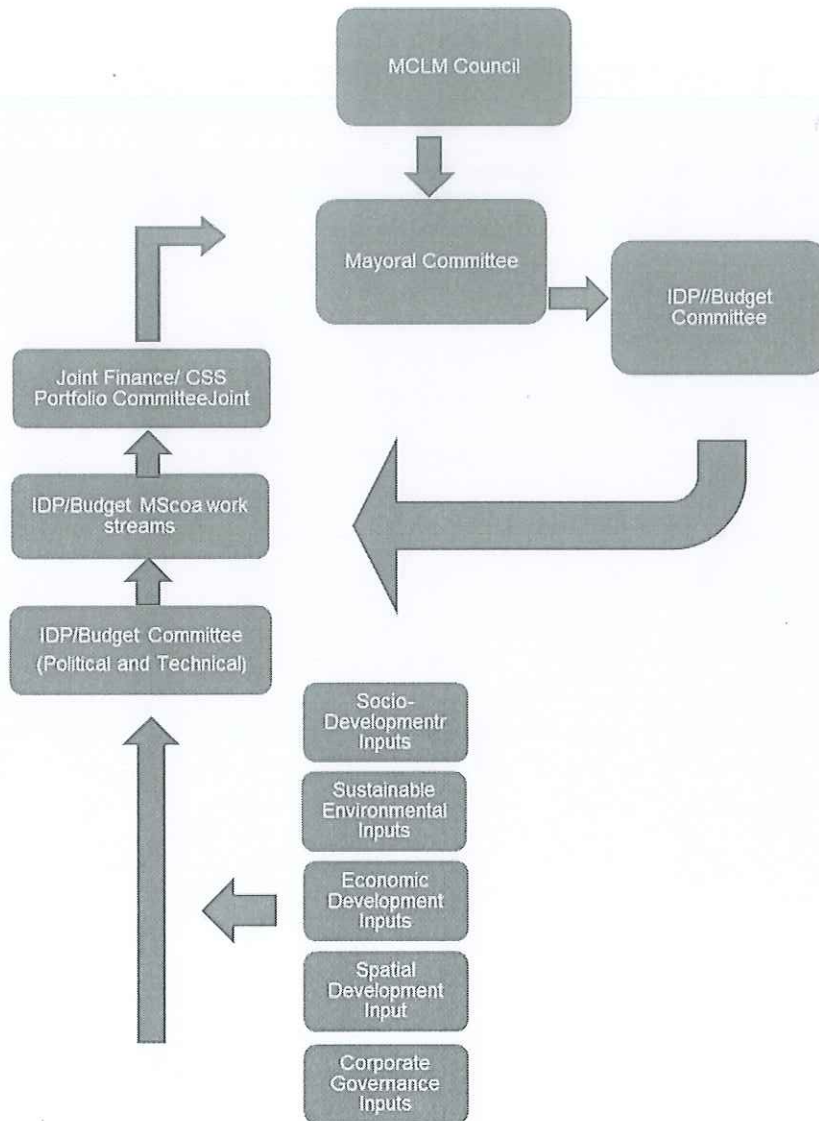

FIGURE 2: IDP PROCESS FLOW

1.7 Mechanisms and Procedures for Public Participation

Section 16 of the Local Government MSA prescribes that:

- A municipality must develop a culture of municipal governance that complements formal representative government with a system of participatory governance, and must for this purpose-
- (a) encourage, and create conditions for, the local community to participate in the affairs of the municipality, including in:
 - (i) the preparation, implementation and review of its integrated development plan in terms of Chapter 5
 - (ii) the establishment, implementation and review of its performance management system in terms of Chapter 6
 - (iii) the monitoring and review of its performance, including the outcomes and impact of such performance
 - (iv) the preparation of its budget; and
 - (v) strategic decisions relating to the provision of municipal services in terms of Chapter 8;
 - (b) contribute to building the capacity of:
 - (i) the local community to enable it to participate in the affairs of the municipality; and
 - (ii) councillors and staff to foster community participation; and
 - (c) use its resources, and annually allocate funds in its budget, as may be appropriate for the purpose of implementing paragraphs (a) and (b)."

For purposes of compliance with this legislative requirement, the MCLM has established formal structures for effective participation in the IDP processes. Below is a description of the participatory function of each of the various structures established for the IDP process:

IDP Sector and cluster meetings– constituted of formal representatives of various civic and community organisations as well as other formal structures affected by the development efforts of the municipality such as:

- Youth, disabled, Tourism, Farmer's organisations and SMMEs
- NGOs & CBO
- CDWs and Ward Committees

MCLM consults its communities on an on-going basis to solicit inputs in as far as the development challenges they face are concerned. To do this in an effective, efficient and structured manner, the MCLM has institutionalised a process of community engagement through the Mayoral Roadshows.

These are community meetings held at the ward level where direct participation by communities is encouraged. To complement this process, ward level planning where planning methods are used to gather data are utilised.

Process flow for IDP community needs

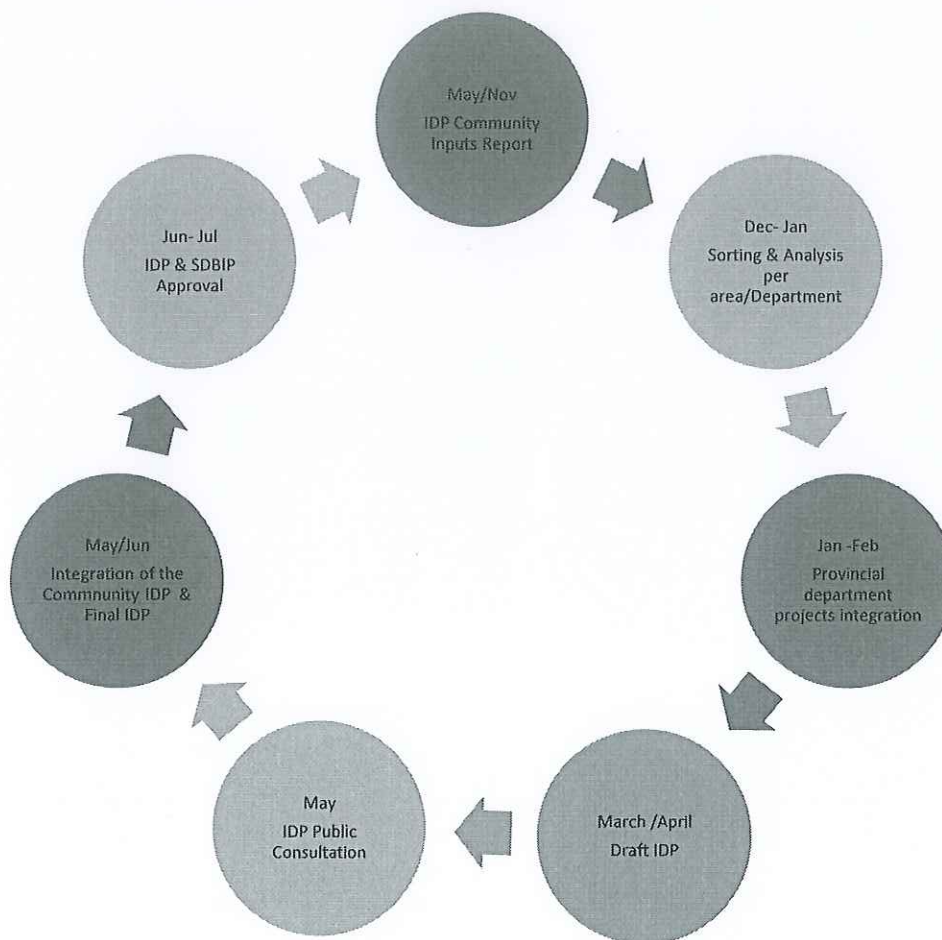

FIGURE 3: PROCESS FLOW FOR IDP COMMUNITY INPUTS

Figure 5, above, refers to the IDP community needs inputs process flow. The process flow provides a guideline on the IDP capturing of community inputs received during IDP roadshows. Immediately after the IDP Roadshows, the process flow indicates that community needs will be captured.

The ward councillors and ward committee would be consulted to verify and prioritise the IDP community needs, thereafter the IDP priority needs are to be submitted to EXCO and Mayoral Committee.

Finally, the needs would be part of the Budget consideration and presentations for the cluster ward community meetings.

1.8 Communication System

The MSA requires that municipalities inform communities of the various processes that are undertaken during the review of the IDP and budget. Section 21 of the Act prescribes the various media formats that must be utilised for this purpose. MCLM publicise all IDP meetings and engagements, approval of documents, and publicise all IDP/PMS/Budget related activities in the following media forms:

- Print Media, local newspapers, and municipal website

Appropriate language usage

English will be used as the medium of exchange. However, in community meetings, the dominant and a local language would be utilised.

Public Participation

MCLM plans to undertake Community engagement sessions after the approval from the Executive Mayor. The municipality would strive to use all media of communication to reach to as many people as possible.

1.9 Conclusion

The 2025-26 IDP commences with the approval of the IDP process plan adoption. This report provides an outline of the revision of the IDP is to follow from planning until adoption. It also provides the timelines, roles and responsibilities of all in the municipality. The public consultation process is outlined to ensure that the process planning and implementation. This process plan would help to provide a foundation for IDP revision.
